

1) What Is Reverse-I-Search In A Linux Terminal?

Ans: Reverse-I-Search Commands Are Used To Find Past Commands.

2) How Do You List Out The Hidden Directories Using Linux Command Line Tool?

Ans: To Show The Hdden Files, We Have To Use The “A” Option, Which Commands “Ls” To List All Files And Folders (Including Hidden Ones).

3) How Comfortable Are You With Using Linux-Based Os Like Ubuntu, Centos, Etc?

Ans: Am Very Much Comfortable With Linux Operating Systems. And I Prefer To Use Cent-Os Because, Cent-Os Is Considered To Be A More Stable Distribution While Compared To Ubuntu. Mainly Because Package Updates Are Less Frequent. This Can Also Prove To Be A Disadvantage Of Centos. If You Want The Latest Version Of A Certain Application Or Software, You Will Have To Install Them Manually.

4) Have You Ever Used Servers To Host Any Web Applications In The Past?

Ans: Yes, I Have Used “Apache HTTP Server”. Because, It Is Free And Open Source Cross Platform Web Server Software That’s Why.
